Replacement Sheet
Serial No. 10/598,860
Title: Method of Optimum Auction Using Network Service
Att'y Docket No. 0144-P0135A

6/11

FIG. 6A

Exemplary auction trading according to a schedule table

✧ Conditions set by a lessor

-minimum unit leasing period: more than 2 consecutive days

-time limit for determining a leasing period: prior to 4 days from a desired lease date including 2 days of a transfer period

-evaluation method for bidders: overall evaluation method or a rank-based evaluation method

-priority rank when applying the rank-based evaluation method: 1. total price

2. average unit price

3. first-come first-served basis

-the consecutive lease application is evaluated as one application without being divided

✧ Example of a status of an auction trading

Schedule		Status of Lease	Setting of Lease-Wanted Person			Date and Time for Lease Determination	Requesting of Rent-Wanted Person
